

Indoor Airborne Risk Assessment in the context of SARS-CoV-2

The World Health Organization and the European Organization for Nuclear Research, invites you to attend the webinar:

Introducing the ARIA tool - Indoor Airborne Risk Assessment -

This session will introduce a new model designed to quantify the risk of airborne transmission of SARS-CoV-2, alongside the associated online tool and its functionalities.

**World Health
Organization**

This event marks the first in a series of webinars scheduled for the year, aimed at exploring further uses of the tool across various settings.

We encourage you to share this invitation with colleagues and contacts who may benefit from this informative session.

Date and Time:

May 8th, 2024, 13:00 to 15:00 CET

Registration:
